September 2026

Exchange rate: 1 USD = 235,000 Toman (28 Sep 2026). All figures are estimates to be confirmed by quotes and contracts.

Email text

• Subject: GreenPars Recycling — Mashhad plastic recycling plant — 31 bn Toman

• Hello [Name], I was introduced to you by [referrer].

• We turn city plastic waste into granule that cuts raw-material cost for pipe and bag makers by 20%.

• Location: Mashhad. Status: financial model, technical partner (Pendar Polymer) and formal letters ready; obtaining quote and municipal MoU.

• Ask: 5 bn Toman for 15–20% equity, part of the 31 bn Toman pilot funding (rest: founders, Pendar instalments, National Environment Fund).

• We state the main risk upfront: granule price sensitivity; our answer is pre-sales, a waste contract and toll revenue.

• Attached: 16-slide deck. Do you have 30 minutes next week?

One-pager

Item	Summary
Problem	20k t/day plastic dumped; virgin polymer expensive
Solution	Washed, filtered, certified granule, 20% cheaper
Market	Mashhad → 10 cities → national
Economics	Capex 31 bn; payback 2.1–5.3 yrs
Edge	Municipal contract + buying stations + Iranian equipment
Ask	5 bn Toman = 15–20% equity

Exchange rate: 1 USD = 235,000 Toman (28 Sep 2026). All figures are estimates to be confirmed by quotes and contracts.
